INTRODUCTION	p. 3
PLENARIES	p. 7
<i>E-learning for fostering the growth of students responsible for their own learning: didactic organization and theoretical reflections</i>	
G. Albano, C. Sabena	p. 9
<i>Developing linguistic competence for mathematics learning: online bridging courses at the beginning of university</i>	
P.L. Ferrari	p. 21
<i>MOOCs-UniTo: Theoretical Framework and Research Lines on Teachers and Researchers</i>	
E. Taranto, O. Robutti, F. Arzarello	p. 31
STRAND “TEACHING-LEARNING MATHEMATICS AT UNIVERSITY LEVEL”	p. 43
<i>Interactive tools to support Linear Algebra teachers: GeoUniud</i>	
M.A. Lepellere, F. Zucconi, N.S. Al Asbahi, A. Carminati	p. 45
<i>Formative peer-review practices in an online environment to promote the undergraduate students’ mathematical thinking</i>	
A. Pierri	p. 53
<i>Routes of digital tasks for promoting individualization of teaching and learning at university level</i>	
A.I. Telsoni	p. 61
STRAND “TRANSITION FROM HIGH SCHOOL TO UNIVERSITY”	p. 69
<i>E-learning as a tool for the recovery and promotion of metacognitive and affective aspects in university teaching</i>	
R. Di Gennaro	p. 71
<i>Online remedial courses for missing mathematics credits in scientific degree programmes: are they effective?</i>	
O.G. Rizzo	p. 79
STRAND “TEACHERS PROFESSIONAL DEVELOPMENT”	p. 87
<i>Peer review methodology in online environment for in-service and pre-service teachers education</i>	
U. Dello Iacono	p. 89
<i>In-service teachers’ training on the integrated use of digital tools through the usage of e-learning platforms: “Introspectum” project</i>	
A. Montone, M. Romita, M. Fiorentino, M. Pertichino, U. Dello Iacono	p. 99
