Seminar Announcement

Ramsey-type results for infinite words

Manuel Silva, New University of Lisbon

Thursday 5th December 2013, 3 p.m.

Room 7, Via Archirafi 34, 90123 Palermo

We will survey results of properties which are unavoidable for infinite words in a finite alphabet. The variety of methods used in the proofs will show connections with several different areas. We will also suggest some possible generalizations and new problems.
